Greetings,

Thank you for your interest in the Field Management of Chemical and Biological Casualties Course (FCBC), Medical Management of Chemical and Biological Casualties Course (MCBC), or Hospital Management of Chemical, Biological, Radiological, Nuclear and Explosive Incidents Course (HM-CBRNE).

These are ATRRS numbered courses. Please reference #6H-F37/300-F31 for FCBC, #6H-F26 phase 1 & 2 for MCBC, or #6I-F10/340-F5 for HM-CBRNE. If your training office (S-3) is unable to reserve a slot for you, please complete and forward a signed DA Form 3838 to us via fax (410-436-3086) or e-mail (usarmy.apg.medcom-usamricd.mbx.ccc-mail@health.mil). We will process your application and forward it to the appropriate office for your entry into the ATRRS Army training database. Once we confirm your registration in ATRRS, we will send you a course welcome packet. There is no registration fee for DA or DOD employees, but your employer must pay for travel and lodging.

This information packet includes a course brochure and a DA3838. If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

The Chemical Casualty Care Division
