Greetings,

Thank you for your interest in the Field Management of Chemical & Biological Casualties Course (FCBC).

This is an ATRRS numbered course (6H-F37/300-F31). If your training office (S-3) is unable to reserve a slot for you, please complete and forward a signed DA Form 3838 to us via fax (410-436-3086) or e-mail ([usarmy.apg.medcom-usamricd.mbx.ccc-mail@mail.mil](mailto:usarmy.apg.medcom-usamricd.mbx.ccc-mail@mail.mil)). We will process your application and forward it to the appropriate office for your entry into the ATRRS Army training database. Once we confirm your registration in ATRRS, we will send you a course welcome packet. There is no registration fee for DA or DOD employees, but your employer must pay for travel and lodging.

If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

*The Chemical Casualty Care Division*
