Dear HM-CBRNE Applicant,

Thank you very much for your interest in the Hospital Management of Chemical, Biological, Radiological, Nuclear and Explosive Incidents Course (HM-CBRNE). You can look forward to experiencing state-of-the-art instruction that may save lives in a major WMD incident.

This is an ATRRS numbered course (6I-F10/340-F5) and your official application process starts at your unit training office. They will check quotas for this course, and if they are available, they will handle getting your reservation in ATRRS. Once we confirm your registration in ATRRS, we will send you a course welcome packet. Your unit will be responsible for TDY and travel expenses.

If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

The Chemical Casualty Care Division
