Greetings,

Thank you for your interest in the Medical Management of Chemical & Biological Casualties Course (MCBC).

This is an ATRRS numbered course (6H-F26, phase 1 (school code 879) and phase 2 (school code 877)). If your unit training office (S-3) is unable to reserve a slot for you, please complete and forward a signed DA Form 3838 to Ms. Paula McBride (paula.g.mcbride.civ@mail.mil) at the Army Human Resource Command (HRC). It is highly recommended that you submit your DA3838 at least 30 days prior to the start of the course as this allows ample time for planning on your end and ours. Once we confirm your registration in ATRRS, we will send you a course welcome packet.

This information packet includes a course brochure and a DA3838. If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

The Chemical Casualty Care Division
