Greetings,

Thank you for your interest in the Medical Management of Chemical & Biological Casualties Course (MCBC).

As member of the Coast Guard, your official application process goes through your Education Service Officer (ESO). Your ESO will submit an electronic application to CG-1121 Operational Medicine and Medical Readiness Division. There is no registration fee for this course.

If you have any questions regarding registration, your POC for entry into MCBC is CDR Charlene Criss. She can be reached by e-mail (Charlene.R.Criss@uscg.mil), phone (202-475-5183), or fax (202-475-5909). Additional information is available on the USCG website at: http://www.uscg.mil/HQ/cg1/cg112/cg1121/mcbc_med.asp.

If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

The Chemical Casualty Care Division
