Greetings,

Thank you for your interest in the Medical Management of Chemical & Biological Casualties Course (MCBC).

As a Department of the Army (DA) civilian, your official application process goes through your training office. Your training office will register you in the ATRRS Army training database for course number 6H-F26, phase 1 (school code 879) and phase 2 (school code 877). Once we confirm your registration in ATRRS, we will send you a course welcome packet. There is no registration fee for DA or DOD employees, but your employer must pay for travel and lodging.

If you have questions, concerns or just want to talk with one of the instructors about the course, feel free to call CCCD any time.

Sincerely,

The Chemical Casualty Care Division
