Greetings,

Thank you for your interest in the Medical Management of Chemical and Biological Casualties Course (MCBC). The MCBC provides selected Medical Corps, Nurse Corps, Dental Corps, and Medical Service Corps officers familiarization with the principles, management, and treatment of acute chemical/biological warfare injuries in the operational environment. This course is clinically intensive and satisfies MAP requirements for Medical Management of Chemical and Biological Casualties.

There is no registration fee for Navy participants. The Navy Medicine Operational Training Center (NMOTC) will make the arrangements to enter your application into the Army training system, ATRRS.

Applicants should request a seat in the course by contacting the POC for MCBC at NMOTC, Ms. Michelle Goodman. She can be reached by phone (850-452-5488, DSN 459-5488) or e-mail ([michelle.l.goodman3.civ@mail.mil](mailto:michelle.l.goodman3.civ@mail.mil)). **NMOTC makes all the selections as to who will attend the course.**

If you have any questions, concerns or even want to speak with an instructor about the course, feel free to call CCCD.

Sincerely,

*The Chemical Casualty Care Division*
